Acknowledgements

We, the members of the Organizing Committee, are grateful indeed to the Russian Foundation for Basic Research for financial support which made the Conference possible.

We owe special debts of gratitude to the director of the Special Astrophysical Observatory of RAS Yu. Yu. Balega for sponsoring the Conference and every assistance in the publication of its proceedings.

We gratefully acknowledge helpfulness of the administration and staff of SAO in organizing the Conference. We are most obliged also to many colleagues from abroad who have always been ready to encourage and assist us.

On the first page of the cover:

Magnetic field maps showing the field vectors:
the chessboard magnetic field (left)
and semi-random magnetic field (right)
(see the paper by C. Sandin in this issue).
